1. Under Project OR 146-52 concerning an emergency program [REDACTED] in the Far East Command, this Office has had occasion over the past six months to request extraordinary assistance from several parts of your organization.

2. We posed an especially difficult problem for the Special Procurement Division by asking for quantities of highly specialized equipment on a short time basis. The equipment was procured in the face of real supply difficulties and enabled us to attain our objectives in a manner that would have otherwise been impossible.

The Personnel Division and the Central Processing Unit also made significant contributions to the success of the program, assisting us in a series of special rush operations.

25X1B4d 3.

[REDACTED] is due to be completed shortly, and we would like to report that the assistance rendered by administrative personnel has enabled us to add significantly to our knowledge of the Soviet economic system [REDACTED] of original information of value to the entire intelligence community.
